RE: CASE NO. 2005-00438  
BLUEGRASS WIRELESS LLC

PUBLIC SERVICE  
COMMISSION

Dear Ms. O'Donnell:

This is to inform you that my husband and I request full intervention regarding the placing of a cellular tower in the above-styled case. This tower will be literally right up against our home that we have been constructing over the last few years and have plans to reside in within the very near future. As said in my letter of November 30, 2005, there are plenty of other locations on the Dyer farm to place the tower without it being at our back door and our neighbors' back door and it is apparent that the location of the tower was intentionally chosen so as to not be an eye sore to Ms. Dyer or affect her property, without due regard to her neighbors.

We request a hearing, an intervention, or any other action that will inform the commission of the absolute unreasonable location of this tower.

Thank you for your time and consideration in this matter.

We also request to be informed of any hearings or proceedings in this matter in due time for us to retain legal counsel if it is deemed necessary.

Sincerely,

RICK & DEBBIE FOSTER  
4220 NORTH HIGHWAY 1247  
SOMERSET, KENTUCKY
